

While only approximately \$25,000 was paid in 1940, the tax refunds for 1941 are expected to be in the order of \$92,000,000 for the entire fiscal year. It is increased to \$117,000,000 for 1942. The increased attention to the increasing in tax collections and returning of the same to the people in the budget this year, still appeared likely to be fulfilled.

## COUNTRY CLUB TO BE REBUILT AT AN EARLY DATE

A meeting of the members of the Danville Country Club was held last night at the Chamber of Commerce and the proposition made by the Riverside and Dan River Cotton Mills in regard to re-building the Country Club building recently burned, was accepted and work on the new structure to cost \$12,000, will begin at once.

The Riverside and Dan River Mills own the ground upon which the Country Club is located and their proposition was to erect a \$12,000 structure, suitable in every way to the needs of the members, for which a rental of ten per cent. of the value of the structure would be charged. This proposition met with unanimous approval.

## AUTO TRUCKS IN COLLISION

A converted truck driven by George Temple and a motor truck belonging to Armour and Company, were in collision yesterday afternoon at five o'clock at the corner of Broad and Main streets. Mr. Temple was turning into Broad street and the Armour truck was emerging from that street when the accident took place at the junction of the two streets and on the right hand side. The smaller truck in addition to having its steering gear badly deranged, suffered a broken windshield and a damaged radiator.

## Speaks Highly of This Home Made Cough Remedy

Says It Acts With Unusual Speed—Loosens the Mucus—Relieves the Irritation and Stops the Cough.

Costs Next To Nothing—for a Big Supply.

Whenever anyone in my family catches cold and begins to cough and sneeze, and hawks and breathe heavy, it doesn't take me many minutes to fix up a remedy that will drive away all such troubles in double quick time. It's no secret—anyone can make a half pint of the finest cough medicine in the world for a trifling sum.

Get from any druggist one ounce of Furmen (double strength)—to this add a little granulated sugar and enough water to make one half pint—that's all there is to it.

Now you've got a real medicine—mind you—the first spoonful you take acts directly on the membrane of the throat and nose, the tickling ceases almost instantly—the inflammation begins to disappear—up comes the stubborn mucus and often in 15 hours every trace of the cough that frightened you is gone.

It's really remarkable how this home-made remedy acts on the mucous membrane and that is one reason it is so helpful to thousands of Catarrh sufferers—adv.

## SACRED CONCERT AT PRESBYTERIAN CHURCH SUCCESS

The sacred concert given last evening at the First Presbyterian church by the combined choirs of the city of Danville delighted an audience that taxed the capacity of the church. The concert was given primarily to stimulate interest in music of all kinds in this city, and was under the auspices of the Music Study Club. There were about 35 in the choir.

Those who fostered the concert last night, who worked up the splendid program and who gave of their time and talent to make it the success it was, are convinced that music needs only to be heard to be appreciated, and it encouraged the habit will grow. A recent statement made by Olga Samoroff, noted pianist, an American by birth, on this point is not amiss, and follows: "It is so easy to speak of the fine things we have done in music," says Mrs. Samoroff, "We have the finest orchestras, the finest opera and many of the finest musicians of the day here in America, of course, but we can't rest on those laurels. There are bigger things to be done before we can say that our pioneering days are over, and the hardest and most important task is before us. That task is to make music a real cultural force rather than an abstract source of pleasure and entertainment."

"Women are already beginning to appreciate this necessity, but American men, occupied as they are with other and probably more fundamental duties, and lacking the leisure that is a part of culture, have not yet allowed music, or the arts generally, to enter very vitally into their lives."

"Many begin to realize, when it is too late, that they have missed something in life. When they have made money and desire to turn from business to some more congenial pursuit, they find themselves unable to take a very active or intelligent interest in art, through a lack of early training and education. So the whole question works itself back to the children. Artistic habits like any other kind, must be formed early in life if they are to be of any real value."

## GUARD COMES FOR FRAZIER

G. W. Graves, a guard from the state penitentiary, came here yesterday to take into custody C. A. Frazier who has been sentenced to serve six years in the Virginia penitentiary on conviction of grand larceny. Ellis Carden and Hooks Anderson, both from Halifax were also picked up by the guard on his return journey.

## Sexless Selling Is With Us

(Special To The Bee.)  
NEW YORK, Feb. 15.—There's no longer any sex in business. The important official behind the mahogany desk doesn't give a rap whether the person on the other side of the desk is a petite blond with a rose in her hair or a lanky individual with a shrub on his hip and a stoic expression.

Pretty Constance Woodward, successful insurance agent who recently sold a record policy for \$500,000, has made the discovery.

"When I started selling insurance eight years ago," she says, "things were different. Then women were rare in the field and when I started out in the morning with a policy and a pencil I was attitudes; the man I approached was either interested in the novelty of being sold something by a woman and was unusually deferential or else he was actively hostile because 'women don't know anything about business.'"

"Now—the business woman has lost her novelty. Prove to a man that your proposition is a good one and he doesn't give a thought to age, sex or color. No longer can a woman, just because she is a woman, expect to wheedle her way past the office boy and take up a busy man's time."

"But a woman, calling on a prospect not as a woman but as a saleswoman need never fear discouragement."

"The bigger the man is the more considerate he is in listening. It is the junior bank clerk who puts on airs."

"But the day is gone when a woman can take to her sex either as an aid or a hindrance. Men simply aren't aware of it any longer."

## DEATH OF MRS. REBECCA GARRETT

Mrs. Rebecca Garrett of Shady Grove, N. C., died at Edmunds hospital yesterday morning at 6:30 o'clock at the age of 74.

She had been ill only a short time, but owing to her advanced age and frail condition, she could not overcome pneumonia which developed so rapidly.

Mrs. Garrett before her marriage was Miss Rebecca Fitzgerald of Guilford College, N. C. In early life she was married to Mr. Baynes of Orange, N. C. She came to Danville with the Christian Church of that place, where she served faithfully for a short time when death claimed of her husband.

Later she was married to Mr. West of Shady Grove, who also preceded her to the grave.

For more than twenty years, Shady Grove church and community have leaned upon her for support in every need of Christian service, although she never severed her relationship with her former church.

While she has only a few surviving relatives, she was a host of friends who mourn their loss. The funeral service will be held at Pelham church this afternoon at 2 o'clock, conducted by Rev. Stanford. Interment will be made in church yard.

## BIG SURPLUS DISCLOSED.

NEW YORK, Feb. 15.—A surplus of \$2,113,428, after paying dividends of \$8,433,248 was disclosed today in the report of the trustees of the Mackay Company for the 11 months which ended December 31, 1928. The company is the holding company of the Commercial Cables Company and the Postal Telegraph system.

COMMERCIAL SECRETARIES GATHER IN CHARLOTTE, N. C.  
(By The Associated Press.)  
CHARLOTTE, N. C., Feb. 15.—More than one hundred commercial secretaries of North and South Carolina are expected to attend the two day convention of the North and South Carolina Commercial Secretaries which opens here tomorrow. A full program for the two days has been arranged and it is expected that much benefit will be derived from the discussions which will take place.

Among prominent speakers who will address the convention are D. A. Skinner, secretary of the Chamber of Commerce of the United States; Spaulding Slater, character analyst of the Industrial Education Association of Washington, D. C.; and many others representing different departments of Chamber of Commerce of the two states.

## ONE KILLED, SIX WOUNDED

LITTLE ROCK, Ark., Feb. 15.—One negro was stabbed to death and three white men and three white women injured today when Eddie Reason, negro, ran amuck in the residential section here. Reason was shot and taken to a hospital in a dying condition. The trouble started, police said, when Will Houston, the negro who was killed, interfered in a quarrel at the home of Reason's mother-in-law.

Pror G. Ragland, who three weeks ago suffered a heavy fall on Main street, in which he fractured a rib, is out again and at his office.

## Retail Merchants Meet Last Night At Hotel Burton

The Retail Merchants' Association had "a full house" when its members and guests sat down to dinner in the largest dining-room of the Hotel Burton. It was the annual meeting and dinner of the organization which has now been firmly established on a sound and permanent business and is growing on the merits of the service it is rendering its members and the memorable benefits they derive from it.

Co-operation, the cornerstone of this efficient organization, was the theme stressed in the speeches which followed the consideration and inspection of an admirably varied prepared and served dinner menu.

The speaker and guest of honor on this occasion was C. P. Yonce, of St. Louis, a native of North Carolina, but for years a resident of Texas. There were present: President W. P. Boatright and Secretary H. B. Watkins of the Chamber of Commerce; President D. E. Graham, Jr., and Secretary Sarril of the Young Men's Business Club; Frank Talbot, ex-president of all the local business and other organizations who introduced Mr. Yonce; Mayor Harry Wooding, Rev. J. M. Shelburne, D. D. and other visitors or guests. President P. C. Thompson, of the local shoe trade, presided and presented the speakers.

Effective and eloquent speakers in his most amiable mood and with such dispatch that the oratory and the business program which followed were disposed of and the guests dispersed by 10 P. M.

The menu which began with grapefruit was followed by a delicious broiled steak, which was the piece-de-resistance of the appetizing meal, and sliced tomatoes, celery hearts, creamed potatoes, petit pois and cauliflower were embraced. The dessert with bananas as the promoter of contentment.

W. P. Boatright asked a blessing before the "feed" began. Then Frank Talbot presented the speaker of the evening, Mr. Yonce, whom Yonce had known for a dozen years or more. Mr. Yonce had selected as his theme "The Credit System and an address of some 35 minutes duration he cited the experience of business bodies and merchants' association in other States and gave an exposition of the most successful methods of such organizations in abating the former familiar loss attributable to bad debts from which merchants everywhere suffered so much. Big business, said the speaker in laying the foundation for his practical discussion of the theme and the consideration of effective remedies, is dependent upon credit and credit is based on character. He related by the credit balance in many large businesses and then addressed himself to the consideration of most approved methods of abating the losses through bad accounts, such as are usually charged to "Trust" and loss account in balancing the year's books. Mr. Yonce especially commended plans and methods involved by the Retail Merchants' association of Houston, Texas, and adverted to the experience of cities such as Birmingham, New Orleans, Dallas and others.

Effective co-operation of the merchants with a live and well maintained credit bureau, and the efficient service of the individual merchants in contributing to the efficient and completeness of the last of bad debtors in accomplishing surprising results in diminishing and practically wiping out the losses from bad debts. Publicity had been found to be an effective agency in inducing or impelling and debtors to best themselves in settling their bad debts.

President Boatright of the Chamber of Commerce, had a good word to say for Danville and was especially enthusiastic in commendation of the city in making provisions for a good library and over the prospect of ample provision for the equipment, maintenance and extension of the city's public education system.

Henry B. Watkins, after an amiable introduction spoke with pleasant humor, paid tribute to the city's public utilities and gave his hearers an optimistic resume of some of Danville's achievements and developments and its hopeful prospect for the immediate future.

Dr. Shelburne was in a particularly amiable vein and spoke in a witty and effectively entertaining style, interspersing among pleasant and witty allusions a serious appreciation of the work of the Merchants' association and those who are laboring for the development of the community among all desirable lines.

L. L. Kaufman made the report of a committee on Advertising and recommended the purchase of space and the insertion of an advertisement by a dozen or more neighboring towns. The report and recommendation immediately elicited spontaneous expressions of approval and assured its adoption on the spot.

Rutledge Carter, an ex-president of the association and one of its most earnest and active members, warmly commended the desirability and attested the practical benefits of group meetings and pleaded for an extension

## JOHN CLEMENT PASSES AWAY

Widespread sorrow was caused yesterday afternoon when it became known that John Clement, for thirty years or more an exemplary citizen and business man, had died at his room at the Pittsylvania hotel, after a long period of declining health, but a brief final illness. Death came peacefully and somewhat unexpectedly, even to those who knew his weak heart and gradual decline in strength. He was about 63 years old and had never married.

Mr. Clement was a native of Campbell county, Va., and a son of Robert Clement. Removing to Danville, he became associated with his cousin, the late A. D. Clement, in the butcher and meat-vending business and continued in that employment until some fifteen years ago when it gave up the retail business and devoted itself to a cattle-buying and wholesale meat business. His partner, A. D. Clement, died some years ago, and his own health had become so seriously impaired that John Clement had been unable to devote as much attention as formerly to the business.

For several years he had been engaged in the purchase of hides and of live-stock or cured meats from the residents of the section contiguous to Danville.

During his long residence in Danville he has impressed those with whom he came into contact and who knew him best as a quiet, upright, unassuming and unobtrusive gentleman and a sincere unostentatious Christian.

Twenty-five or more years ago he identified himself with the Main Street Methodist church and while in health was a regular attendant and an active participant in its varied work, having been identified with the Epworth League or young people's society, the Sunday school and served as a steward. In his personal relations his quiet amiability and kindness and charity impressed those who enjoyed an intimate acquaintance or association.

The deceased was survived by two brothers, the Rev. Charles Clement, a Baptist minister of Jefferson, Va., and A. T. Clement of Newport News, Va.

Soon after Christmas, Mr. Clement who had been suffering from an abscessed tooth went to the General

hospital and sought relief from treatment by a physician and a specialist. His case did not respond to treatment and finally began to affect one eye. Returning from the hospital to his room at the Pittsylvania hotel, he died about a week ago. Mr. Clement was believed to be improved until the sudden development of his malady affected his heart and quickly terminated his life.

The funeral services will be held tomorrow (Saturday) morning at 10 o'clock from the Fox's mortuary chapel, Main street, and will be conducted by the Rev. Thomas A. Snoot, D. D., pastor of the Main Street Methodist church. Interment will be made in Lee mont cemetery.

Best grades bring top prices

Who gets the best prices for his tobacco? Why, the farmer who brings in the best grades, of course. If you use high grade fertilizer intelligently, you will not only make a bigger crop, but your tobacco will be of a better grade than usual, and will mature earlier.

Read this experience of a good tobacco farmer:

"Two croppers had five acres each in the same field with nothing between but truck row. One of them used Royster's and the other used fertilizer of another manufacturer; the land was prepared at the same time and in the same way; the same quantity of fertilizer per acre was used and put out the same day; plants were drawn from the same pits on the same day; set out by the same planter and the hands; cultivated alike; cured in the same barn by the same man; graded and sold by same parties. The tobacco grown with Royster's fertilizer sold for \$625.53 more than that grown with other fertilizer."

# Police Have Clue To Mystery of Nun

Investigating Officials Expect to Name and Capture Abductors—Victim in Bad Aids Inquiry.

FREDERICK, Feb. 11.—The county commissioners this afternoon, on the recommendation of Aaron R. Anderson, state's attorney, offered a reward of \$500 for the arrest and conviction of the persons alleged to have kidnapped Sister Mary Cecilia from the Notre Dame convent Monday evening. Tonight the state's attorney said an investigation will be pressed that is expected to lead to the identity and capture of the abductors.

It also was said that a clue that will prove that the nun was kidnapped has been discovered by the William J. Burns International Detective Agency, Inc., which was notified a few hours after the nun disappeared. State's Attorney Anderson, Sheriff Jones and a representative of the Burns International Detective Agency, Inc., which was notified a few hours after the nun disappeared. They were the first persons who have talked with her since the kidnapping, and the exception of the Rev. William J. Kane, pastor of St. John's church, per physician, Dr. William Meredith Smith, and Sister Nola, sister superior of the convent. While she is still nervous her general condition has improved much.

In the presence of her physician and Sister Nola, Sister Cecilia, still in bed, talked freely with the officials. Some details which she told, the authorities would not make known. She repeated, in effect, that she was struck down, seized and made insensible by an anesthetic or drug, quickly

taken from the building and placed in an automobile. She repeated the story of waking up and finding herself lying on a cot in a Baltimore house, escaping and making her way back to Frederick in a taxicab. She willingly answered questions asked by the detectives and appeared anxious to give all the information possible bearing on the affair.

State's Attorney Anderson asked about the package found in the taxicab containing a wash cloth, towel, needle and thread, a thimble and small mirror. She said the package did not belong to her and that she knew nothing about it. Her only solution was that it might have dropped from the pocket of the coat that she took from a chair in the house from which she escaped or that it belonged to some other passenger of the taxi. Sister Nola stated positively that the contents of the package did not come from the convent.

At the conclusion of the interview State's Attorney Anderson said: "I am entirely satisfied that Sister Cecilia was kidnapped. She gave us some information which promises early arrests. Her story was essentially the same as the report given out the night of the kidnapping. She gave, however, additional information which I do not feel at liberty to make known at this time."

Sheriff Jones said: "I have always believed that she was kidnapped and I feel convinced of this now, after talking with her. The detective made no comment. Sister Cecilia has brothers and sisters living near Vernon, Pa. They have not visited her since the kidnapping."

## New Rules For Mailing Matter Second Class

WASHINGTON, Feb. 16.—A campaign for better mailing of second class matter with the object of eliminating poorly addressed publications from the mails is being conducted by the Postoffice Department.

Publishers, the public, and the postal service, postal officials are working mutually by the steps taken to reduce undesirable second class mail which includes newspapers, magazines and other types of publications.

Publishers are called upon to see that publishers fulfill the recommendations of the Department wherever possible. Publishers themselves are strongly advised about features of their mailing practices which are general to postal officials experts declare, will insure fewer losses of newspapers and magazines to subscribers.

Unusually small publications should be included in envelopes. Publications mailed in single wrappers should be flat not rolled. Publications should be folded to a size not larger than 9 by 12 inches if possible.

Addresses should be in 10 point type or larger or in a legible hand. Old newspapers should not be used as wrappers. Ink should be black or blue and the ink should be dry on the wrapper. Wrappers and paper should be white or of very light tint. Separation of copies to rural and to city subscribers will facilitate distribution.

Individual copies unfolded and unwrapped should have addresses in such a manner that the address appears in the upper corner near the bound edge when a copy is grasped by the bound edge.

Notice of entry of publication as second class should appear on all wrappers and envelopes. Care should be taken about paste on labels. Too little permits the label to fall off and too much makes the publications stick and destroy the legibility of the address.

Miss Martha Richmond has returned to the city after visiting in Roanoke, Columbus and Cleveland, Ohio.

## They Get Another Taste of Russian weather

These seven little Russian orphans, who were adopted after the close of the war by Rear Admiral N. A. McCully, U. S. N., and brought to this country, got a real taste of old-time Russian winter weather the other day when the first heavy snow of the year struck Washington. Did they enjoy it? Well, rather!

## AN OPEN LETTER

February 16, 1923  
John W. Carter, Jr., Esq.  
Danville, Virginia.

Dear Sir:

We have been trying for a number of years to have the Franklin Turnpike included in the State Highway System in order that it may be routed, planned and be subject to permanent improvement out of the State Road Funds and also maintained by the State.

Our efforts so far have not been successful. Will you, if elected to the State Senate, advocate including this road as a part of the State Highway System?

Very truly yours,

Citizens of the Franklin Turnpike.

## Good Morning Judge!

A warrant against Sallie Fawlin, colored, charging felonious assault on Wyatt Watson, colored, was dismissed following a hearing in the police court this morning. However, she was fined twenty-five dollars and costs for maintaining a disorderly and ill-governed house.

The assault charge was the result of a fight which took place recently at the negroes' home on Washington street, in which Watson is alleged to have attacked Jane, sister of Sallie, the latter breaking a quart bottle over the assaultant's head, inflicting a bad wound. Watson was unable to speak for over six hours. He claims he was unconscious from the blow but others contended he was "dead drunk" because he was very much intoxicated when he came to the house.

Watson took the stand and denied creating any disorder or striking Jane. He admitted pushing her in a playful manner but denied he was drunk or had brought any whisky to the house. He said he had gone to the house to tell Marshall Brown that he had found his overcoat on the railroad. He claimed Sallie struck him without cause.

Witnesses told an entirely different story. Several testified that Watson came to the house and was drunk and carried in his bosom a quart bottle of whisky. He is said to have become disorderly immediately on entering the house and to have said: "As soon as I get rid of the bottle I'm going to knock Emma Jane's head off," using much profanity. He is then alleged to have attacked Jane and struck her a blow which sent her reeling across the bed. It was then that Sallie seized the same bottle and threw it across his arm and did not know exactly when or how he managed to lose it in that manner. Watson says he found the coat on the railroad.

Wyatt, colored, drew a fine of eleven dollars and costs for violating the Mapp Act.

Eddie Rosenstock, charged with violating the traffic ordinance by running through a safety zone, was not present.

L. W. Coley Jr. was not present to answer a charge of violating the Mapp act.

## Norfolk Library Distinct Asset

NORFOLK, Feb. 16.—Expansion in the activities of the Norfolk Public Library was reflected in the annual report submitted last night to the board of directors of the institutions. In the Home and Reading Room branch alone, according to statistics submitted by Miss Frances Brown, the number of books doubled within the last three years.

During the year just closed the library added 4,721 volumes to its shelves, 2,856 by purchase and 1,865 by donation. These are at present 39,691 books in the main library and branches, 3,482 in the Children's Department and 31,209 in the Adult Department.

## Last Night Was Coldest of The Winter Season

Last night was the coldest of the present winter. The thermometer which descended about 32 degrees throughout the day sank further at dusk, and at daylight it was at 11 degrees below zero. Weather experienced since last winter. The previous low record was 12 degrees below zero.

The Weather Bureau two days ago indicated this sudden cold snap and it was also at that time that a little relief during the remainder of the week.

Retiring Director Sends Letter Stating Ill Health Was Cause—No Mention of the Charges.

(By The Associated Press.)  
WASHINGTON, Feb. 16.—The resignation of Colonel Charles R. Forbes, as director of the veterans bureau, has been accepted by President Harding, effective February 26. It was announced today at the White House. Without comment, officials made public a letter from the retiring director who is in Europe and assigned ill health as the cause for his resignation. No mention either in the letter or by officials was made of the charges of improper administration in the bureau which recently has led to an investigation by a Congressional Committee.

## Immense Loan Made to Poland By French Gov't

(By The Associated Press.)  
 PARIS, Feb. 15.—A loan of 400,000,000 francs to Poland was voted by the French Parliament today. It is officially described as "for the purpose of improving Poland's financial and economic situation so that it may resume its proper place in the European concert of nations and play the role to which its geographical position and history entitle it."

The vote on the measure was 507 to 73. Many of those who voted against it declared the loan, while destined ostensibly for the organization of the Polish Army "against unwarranted attack from the East" was really put through as a "means of coercion against Germany from the West."

The engagement for the loan was undertaken by the Briand government in 1921, and article 2 of the bill reads:

"The French government is empowered to open a credit for 450,000,000 francs to the Polish government for deliveries of material under special account, reimbursable at the rate of five per cent interest."

The report of M. Reinhold, rapporteur for the foreign affairs committee of which former Premier Leger was president, says the loan is destined to balance Poland's civil expenditures, such as those for the railways, telegraphs, telephones and other public utility services. The next item, however, says that the loans "for the purpose of national defense" to be decided upon "by mutual arrangements between the two governments of France and Poland, in accordance with the decisions of the French and Polish general military staffs."

Opposition to the measure in Parliament was based on the allegation that the danger of an attack on Poland from the East was now in existence and thus the money was being advanced for military purposes not for national defense, but in reality, offensive.

During the discussion there were verbal exchanges between Premier Poincaré and the socialists, especially Deputy Marinus Migniot, who declared that during his trial before the high court.

**THREE BURNED TO DEATH IN FIRE AT WINSTON**

(By The Associated Press.)  
 WINSTON-SALEM, N. C., Feb. 15.—In a fire tonight in Wauwatosa, suburb of Winston-Salem, Melish Grant, negro woman and two negro children, twins, were burned to death. A negro woman was burned and died while being hurried to the hospital. The building caught fire from a heating stove and being a high frame structure was wrapped in flames before help could be summoned.

## Take Indians' Example to Perfect League of Nations, Urges Redskin

IN VIEW of the present world interest in the question of whether a League of Nations is practical, NEA Service asked GAWASA WANNEM, an Indian of the Seneca Nation and a writer who has helped to make famous the League of the Iroquois, which was the first League of Nations, for his opinion. He has written it here. The League of the Iroquois was formed more than 200 years ago, when the Indian tribes of the northeast—Senecas, Onondagas, Cayugas, Mohawks, Oneidas and later the Tuscaroras—banded together and buried the hatchet, living amicably and playing an important role in the development of New York state.

BY GAWASA WANNEM  
 (Special to The Bee.)  
 Descendant of Seneca Sachems, Clan of the Bear, Seneca Nation of the League of the Iroquois; Author of "The Constitution of the Five Nations."

ALBANY, N. Y., Feb. 15.—Why do not the quarrelsome way-torn nations of the world make peace patterned after the successful plan of the Iroquois Indians?

The Tree of War stands in the Garden of Peace. Money is the tap-root of the world's woes; the supporting roots of the Tree of War are jealousy, superstition, ambition and revenge. While nations wage war, there is only one thing: The world is not yet civilized.

Let us translate into these modern terms the League of Nations that the Iroquois—called savages, indeed!—established 500 years ago.

The world should have a League of Nations and America should be added upon to elect a moderator, like Adodarhoh, the Onondaga, who was the presiding officer of the Iroquois Five Nations. Let President Harding be the Adodarhoh of 1923.

The sponsor of the Iroquois' great plan was Jikonsah, the "mother of nations." To carry out the analogy let the Queen of Italy be the Jikonsah of 1923.

## SENATOR TAPP'S BILL IS TABLED

(By The Associated Press.)  
 RALEIGH, N. C., Feb. 15.—Senator Tapp's bill which would make members of the North Carolina General Assembly ineligible for judicial or any other office created by the legislature of which they were members until submitted to the next ensuing general election tonight was tabled in the Senate.

Among the important measures passed during the night session were a bill making it unlawful to operate a punch board or any other lottery in the state.

A joint resolution requesting Virginia to provide railways in the dunes across the Dan River in that state to permit fish to swim into the dunes in North Carolina and Stokes Counties, North Carolina, tonight was passed by the Senate, ratifying the action of the House.

## VA. BAPTISTS THIRD IN GIFTS

Of the \$33,420,411.79 contributed thus far by Southern Baptists in their seventy-five-million campaign, Virginia has contributed \$4,102,502.12, or as and Kentucky, according to the report of the Southern Baptist authorities. Texas has turned in \$5,092,193.32 and Kentucky's total is \$4,122,039.79. There is also an amount contributed by Texas and marked "special" ringing its total to over \$6,000,000.

The sum of \$87,000,000 remains to be collected within the next two years if the full seventy-five-million is to be realized. An intensive campaign has been inaugurated by the Baptists with a view to securing this amount. More intensive education of the members of the churches in the work, carried on by the denominations in the mission fields, in education and in benevolences, and instruction in stewardship and systematic giving is the plan devised for the accomplishment of this purpose.

## THE BEAUTY OF HEALTH

Newspapers and magazines are devoting columns to magic or over-night transformations. There is a beauty of health that is far more attractive to men than mere regularity of features or a made-up complexion. Health should be the first essential of women who want to win and hold admiration, respect and love. At the first indication of ill health, as indicated by dark circles under the eyes, a sallow complexion, headaches, backache, pain in the nerves, nervousness, irritability and melancholy, women should take Lydia E. Pinkham's Vegetable Compound—a standard remedy for women's ills, which has been proven to help 98 out of every 100 women who try it.

GAWASA WANNEM

Under these directing hands, Germany should be forced to repudiate her internal indebtedness. An international commission should be given the means to deal with the defeated central powers and to make them understand that justice as dispensed by an informed and intelligent jury of nations must be accepted.

Let the nations repent their paper money and issue no more unsecured currency. Let them have an international currency and a central bank in each country. Nothing would so induce the nations to peace as a lesson from the Iroquois who had too much sense to be the savages many people think they were.

## Ruhr Occupation Both Defended And Attacked

(By The Associated Press.)  
 DUESSELDORF, Feb. 15.—Rapid strides toward realization of France's aims in the Ruhr are being made daily, according to announcements from the occupation headquarters which point out that from 8 to 9 trains of coal, coke, or approximately 5,000 tons are leaving the Ruhr daily for France.

The French maintain that the Rhine traffic also shows marked improvement, coal and coke being sent out quite regularly in barges by way of Strasbourg. Steamships in all have been requisitioned and manned by French and Belgian sailors.

The five aces include also hundreds of bags, many of which are already loaded with fuel, and the French plan great hope upon this movement of fuel by water, but admit that the system is not yet working as smoothly as it should within a short time.

The French are maintaining five daily passenger trains from Muenchen to Dueseldorf, some of which carry Germans having special permits granted by the French.

Even within the newly occupied territory freight trains are running. These are mostly composed of coal and coke cars but when the occasion arises the French also transport ultra-Luhr freight for the Germans, and this is very much appreciated by the population.

## ISMET PASHA IS KEEPING MOVES RATHER IN DARK

(By The Associated Press.)  
 CONSTANTINOPLE, Feb. 15.—Ismet Pasha's movements are still obscured but he is expected to reach here tomorrow. Until his arrival, both the Ankara government and the allies are merely waiting. There is reason to believe that Ismet will meet the Allied High Commission in Constantinople before proceeding to Ankara, and there is general expectation that such a conference will have far-reaching results.

The Vahki pays a remarkable tribute to the Allies for its reports of the Lausanne conference, declaring that what happened in the conference was accurately chronicled and for the first time the Turkish position was presented without bias. It feels that owing to this there has been a decided change in American public opinion, in a measure overcoming the insistent anti-Turkish propaganda, which the paper says, had "colored American thought."

## ROBBERS OVERLOOKED MONEY IN HIS GLOVE

DENVER, Col., Feb. 15.—"Seventy" dollars in a glove is worth \$150 in a pocket.

This is the conviction of Major Dan Hathaway, Government employee, who resides at the Oxford Hotel, who was ordered to "catch 'em up" the other morning when walking on Mexican avenue.

Hathaway had \$75 concealed in his right glove, which he wore. When he felt his hand "catch up" the money remained in the glove.

The hold-up men searched Hathaway and found a cold watch and a clock pin, which they did not take. Hathaway had a 2-cent piece and three pennies in a pocket.

"It's all I've got, boys," Hathaway told them. "I hope you will leave me enough of that for street-car fare."

The burglars registered disappointment.

"Fellow, 'We won't take that," one said, "but here's hoping you have more next time and 'hark you stars you have it more this time."

Hathaway reported the incident to the police.

## Rail Earnings Show Increase

(By The Associated Press.)  
 WASHINGTON, Feb. 15.—Railroad earnings for the month of December 1922, according to complete returns from class and carriers compiled today from the Interstate Commerce records. Because of the heavy volume of traffic, the total revenue from operation was \$13,575,000 during the month, or 20 per cent more than in December of 1921, and the net income was \$7,154,000 as compared with \$7,869,000 during the same month a year ago. This earning rate, if maintained for the year would give an annual return of 5.15 per cent on the value of all property used for transportation, according to a statement of the Association of Railway Executives commenting upon the returns.

For the entire year of 1922, the net income of class one railroads, according to the association's estimate was \$77,421,000, which actually represented a return of 4.14 per cent on railroad capital and is still below the level of earnings to which the Interstate Commerce Commission has declared railroads entitled by its fair return standards. In 1921, the net income of the same roads was \$615,945,600. All railroads having annual revenues in excess of \$1,000,000 are enumerated in the class one compilation, and the total given represent the earnings of more than 80 per cent of the entire rail mileage of the country.

While the extraordinarily heavy business given the roads during December is officially attributed to the general betterment of business conditions and heavy crop movements, in some degree it is also held to be due to the damping up of commerce during the summer months by the prolonged rail and coal mine strikes. Car shortages which marked the fall months, also tended to show a heavier business than normal into the December period.

The executives' statement pointed out that during December the railroads began to get the better of the car situation, in that their expenditures for repair of cars rose to \$116,810,500, or 25 per cent above those made in the same month a year ago, with the result that the number of awaiting repairs at the end of the month was 10,377 less than it was at the beginning of the month.

## IRA HARRISON WILL PAY PENALTY FOR MURDER OF ARNETTE

(By The Associated Press.)  
 COLUMBIA, S. C., Feb. 15.—After being in an almost comatose state for several days, Ira Harrison, youthful slayer of John C. Arnette, tomorrow morning will pay the penalty for his crime in the electric chair at the state penitentiary here.

Governor Thomas G. McLeod issued a statement that he would not interfere despite a bulky petition presented him today.

## You Can Quickly Limber Up Sore, Stiff, Swollen Joints

Even Chronic Rheumatic Swellings in Knee, Elbow, Shoulder or Finger Joints Yield to the Mighty Powerful Influence of JOINT-EASE.

It's here, right in town and every drugstore has it. It's a low price remedy, to be sure, but that doesn't stop it from taking the kinks, lameness or torture out of your troubled joints.

JOINT-EASE is the name, so called because it is compounded solely for the purpose of relieving all joint ailments.

Just rub it on the tormented, lame joints and in just a few seconds it will penetrate to the bone and blessed comfort comes quickly.

It absorbs instantly and is so clean and stainless that you can rub it on often and get thereby results much more quickly when the joint is inflamed and the agony intense.

Being such a powerful counter irritant, it cannot help bringing speedy and helpful results in congestion, sore throat, chest colds, lumbago and neuritis—much quicker than almost any remedy you can buy.

But you must remember that it is for joint afflictions that it is mostly dispensed and its helpfulness will astonish you after all ordinary liniments and other treatments have failed—adv.

FRIDAY  
Jesus a Healer  
"And he healed many that were  
sick." Mark 1:34.  
"We worship God best by loving  
men."  
MEDITATION: The world is full  
of wrecked bodies, troubled minds,  
tormented spirits waiting for the skill,  
understanding and sympathy to heal  
them.  
HYMN:  
"O Master, from the mountain side,  
Make haste to heal these hearts of  
pain.  
Among these restless throngs abide,  
O tread the city's streets again.  
PRAYER: We pray for the sick;  
grant them health, and raise them  
up from their sickness and make  
them to have perfect health of body  
and soul; for thou art the Saviour  
and Benefactor, thou art Lord and  
King of all. Amen.

DANVILLE'S SCHOOL PROBLEM.

Formal presentation of the city  
schoolboard's improvement pro-  
gramme with the request to the coun-  
cil to authorize a bond issue of \$400,-  
000 is not surprising to those who  
have followed the trend of local schol-  
astic affairs during the past few  
years. The very urgency of the whole  
school question—the congestion at  
present in evidence which militates  
against the best results in tuition, the  
number of small children who are  
unable to go to school because of the  
lack of space and the admittedly de-  
plorable condition of the colored  
schools—will go a long way towards  
stiffing any acute resentment over the  
size of the bond issue, and the neces-  
sity of increasing the city's tax rate  
in order to finance the issue should  
the election be successful. Brought  
face to face with the problem the in-  
evitable question is asked why the  
facilities in the city schools have not  
been improved of recent years to keep  
pace with the needs. The answer to  
that question may be found in an  
analysis of the city financial aspects  
of recent years—the period since the  
war which has been one of difficulty  
and from which Danville is now hap-  
pily emerging. To say that the  
schools have been neglected for the  
carrying out of the city's street-pav-  
ing programme—is to place the respon-  
sibility on the community for  
there was a clearly expressed demand  
that the street work should be done  
and it was in answer to this general  
demand that it was undertaken.  
One reason for the extensive de-  
mands made by the schoolboard is  
traceable to a changing policy of the  
public mind. Of recent years there  
has been a steady trend towards edu-  
cation. A deeper appreciation of  
what it means to give children learn-  
ing and to equip them better men-  
tally for their adult life. The advo-  
cate of State laws requiring school  
attendance and the raising of the pub-  
lic school standards which finds the  
aerated parent patronizing the pub-  
lic school system more readily than  
the private school have played their part  
in Danville's high tide of school popu-  
lation. These forces have been ac-  
cumulating while little or nothing was  
done to increase the facilities. It is  
apparent therefore that in making  
the improvement proposals now, the  
schoolboard finds it necessary to make  
up for arrears as well as to look for  
the immediate future needs of the  
system.  
While increased taxation invariably  
finds its force in the belief that the pro-  
posed legislation represents in the  
council the right to raise and decrease  
the city's tax rate will be greeted  
with good grace because of the gen-  
eral recognition throughout the com-  
munity of the vital need of the im-  
provements which could no possibly  
be undertaken out of the current re-  
venues. It is a thing which comes  
home to nearly every family circle  
it is a domestic problem rather than  
otherwise. We trust that no local is-  
sue will be raised and that there will  
be no friction at the town war a  
berange of propaganda which is tear-  
ing the State on the road bond issue. The  
freeholders of the city may be said to

be thoroughly conversant with Dan-  
ville's compelling needs of larger edu-  
cational facilities and they may be  
counted on to act intelligently when  
the time comes to reach a decision  
through their expression at the polls.

**DRAKES BRANCH, February 16.**  
(Grapevine Wireless.) There are  
many kinds of lars but the Windy  
West has the world beat.  
"Yes, sir," resumed the  
Dakota farmer, as the  
crowd of agriculturists  
seated themselves around  
a little table. "Yes, sir,  
we do things on rather a  
sizeable scale. I've seen  
a man on one of our big  
farms start out in the  
spring and plant a  
straight furrow, until au-  
tumn, then he turned  
around and harvested  
back. We have some big  
farms up there, gentle-  
men. A friend of mine  
gave a mortgage on  
you my word, the mortgage was due  
on one end before they could get it  
recorded at the other. You see it  
was laid out in counties.  
"And the worst of it is it breaks  
up families so. Two years ago I saw  
a whole family prostrated with grief  
—women yelling, children howling,  
and dogs barking. One of my men  
had his camp truck packed on seven  
four-mule teams and he was going  
around bidding everybody good-  
bye."  
"Where was he going?"  
"He was going half way across the  
farm to feed the pigs," replied the  
Dakota man.  
"Did he ever get back to his fam-  
ily?"  
"It isn't time for him yet. Up there  
we send young married couples out  
to milk the cows and their children  
bring home the milk."

**SMALL TOWN  
BLAMED FOR  
CITY VICE**

**BY ROY GIBBONS**  
(Special to The Bee.)  
CHICAGO, Feb. 15.—The small  
town, according to Dr. Philip Yarrow  
here, stands indicted for unwittingly  
driving hundreds of unsophisticated  
city folk into the growing street-life hor-  
dres of the big cities.  
The cause, he says, is lack of prop-  
er recreational facilities in the coun-  
try town.  
As state superintendent of the Illi-  
nois Vigilance Association, Yarrow  
bases his charge upon startling re-  
velations brought out in a grand jury  
investigation of Chicago's allegedly  
protected red-light district.  
"These girls come to other big city  
with pure purposes and intent, but  
fall prey to its snares because they  
are not adapted to the conditions and  
environment thrust upon them," he  
says.  
Better that they did not come at  
all.  
"Make the small town attractive  
enough for them to stay there. There  
is no reason why this can't be done.  
These girls are not driving their  
about."  
"Seventy per cent. of the victims  
of vice I have found are recruited  
from small towns."  
They are not bad at heart, but  
merely poor misguided creatures  
tossed up in the social upheaval of  
prevalent unrest. They want to get  
away from the taffy pulling parties  
in the village and other mediocre  
amusements which seem to pall on  
them.  
"Solution" of the whole problem  
lies in education. By reaching young  
people of high school age with rec-  
reational interests which are not sug-  
gestive of crime, or directing their  
surging ambitions into wholesome  
channels, an effective cure to the  
whole difficulty can be instituted.  
"At least it will keep girls down on  
the farm where they belong until the  
dangerous age of adolescence has  
passed, and they have arrived at the  
period in life when sound horse sense  
can steer them away from the haluc-  
inations and pitfalls waiting on Broad-  
way."

**TOM SIMS SAYS**

We sent our soldiers to Germany  
and they got married so let's don't  
ever fight China or Japan.  
The world gets faster. A man can  
get married in two minutes or drink  
himself to death in one.  
First saxophone was made in 1846  
and the evil hasn't been stopped yet.  
Entirely too many people try to  
get the upper hand by dealing from  
the bottom.  
"Stay at home with your cold," ad-  
vises a doctor. It would be nicer if  
you could leave it there alone.  
Home grown things usually seem  
the best, especially home grown girls.  
Wearing old clothes is all right if  
you know you don't have to.  
Thinking you are sick tells on you  
quicker than a small brother.  
One way to beat the income tax is  
to buy oil stock.  
Spring will be here in a few weeks  
if some reformer doesn't object.  
Next year is leap year, but every  
year is leap year for pedestrians.  
A baby with a rich uncle is always  
easy to name.  
Next to keeping a good man down  
the damndest thing to do is keep a  
bad one up.  
The most slushy thing about snow  
is the poetry it inspires.  
If there were no movies, where  
would people go to talk?  
A man who means well doesn't al-  
ways keep within his means.  
A dream is a nightmare when she  
has her hair rolled up.  
The best way to feel at home is to  
stay there.  
If we could only leave the income  
tax blank that way.

**Virginia Senators  
Opposed To Beach**

WASHINGTON, Feb. 15.—Elimina-  
tion from the District appropriation  
bill of the clause designating the south  
end of the new Key bridge as a lo-  
cation for a colored bathing beach  
prompted the secretary of the Virgin-  
ian and Glass, of Virginia, who  
served notice upon Senator Phillips,  
head of the Senate conferees, that un-  
less this provision is dropped they  
will fight adoption of the conference  
report.  
Failure of Representative Moore, of  
Virginia, to have the clause dropped  
in the House, it is said, led opponents  
of the bathing beach location to carry  
the fight to the Senate. Senator Glas,  
as one of the conferees, told Senator  
Phillips the secretary of the Virgin-  
ian and Glass, of Virginia, who  
served notice upon Senator Phillips,  
head of the Senate conferees, that un-  
less this provision is dropped they  
will fight adoption of the conference  
report.  
Pollution of the Potomac River at  
the site proposed, a few hundred feet  
below the Russian end of the new  
bridge, is cited as one of the reasons  
for opposing this location. Another  
argument is that a bathing beach in  
the vicinity of the Key bridge would  
impair its beauty.  
The stand taken by the Virgin-  
ian senators will necessitate at least a  
week's delay on the appropriation bill,  
it is believed. If the Senate acquiesces  
in their demands, the conference re-  
port will have to go back to the House  
before final approval can be given.

**STEEL WORKER  
DROPS TO DEATH**

**RICHMOND, Va., Feb. 14.**—Henry  
Burke, a structural steel work-  
er, living at Marshall and Seventh  
streets, was killed this morning when  
he fell from the third floor of the  
framework on the new National  
treasury building erected at Seventh  
and Broad streets.  
Burke was climbing a pillar pre-  
paratory to making a connection of  
two beams, when he slipped. In his  
descent he struck two cross beams,  
striking the concrete flooring on the  
street level.  
L. L. Edmundson, a fellow worker,  
heard Burke scream when he lost his  
hold on the pillar, and ran to the spot  
just as the man's body came crash-  
ing through the temporary wooden  
frame work. Edmundson picked the  
injured man up and helped carry him  
to the Johnston-Willis sanitarium in  
an ambulance. The injured man died  
just as the hospital door was reached.  
An examination disclosed that his  
back was broken and his skull frac-  
tured.  
Burke was a native of New York  
and came here some months ago to  
work on the theatre construction. His  
wife, who lived here with him, was  
notified.

it contained passages of deep political  
significance. Today the letter was  
given out to correct such reports. The  
President wrote:

tone was low, controlled.  
"No, I'm not angry at you," Lily.  
"But I think I could strike you, choke  
you, without the least feeling of guilt  
or regret."  
"And just a few days ago you told  
me you loved me?" from Kate.  
Latham blew a ring of smoke. He  
eyed Kate coolly through the haze.  
His face was quite expressionless.  
"You fool!" he said at length under  
his breath.  
Then he looked away and con-  
tinued puffing his cigaret. "You  
were dangerous lights to his eyes.  
His mouth curved cruelly.  
Kate hated him for the moment.  
And feared him.  
She never had seen him in such a  
mood. She found it hard to believe  
that the man across the table from  
her and the one who had made such  
ardent love to her a few weeks before  
were the same person.  
She was puzzled. Should she stay  
and eat the food he had ordered for  
her? Or should she risk the scene  
that leaving might cause? She tried  
to move but seemed held in her chair  
by the very intensity of his gaze.  
His elbow was on the table, his  
chin resting on his left hand. His  
right hand toyed with his cigaret.  
"You've made a fool of me." His  
voice was low and cold. "One min-  
ute you've had me half mad with  
jealousy of a man who doesn't exist,  
and the next the next you're making  
me believe that you were a sort of  
super-woman."  
When Latham finally stopped  
sitting, Kate, too, was silent. She  
watched him as he watched the nerv-  
ous movement of his right hand  
which lay on the tablecloth.  
"It seems rather foolish for a woman

she asked at length.

**VAL OF  
PARADISE**  
by Virgie S. Rice

(Continued From Our Last Issue)  
"Val," murmured Velantrie and  
said no more.  
"Velantrie!" screamed the girl, un-  
conscious of the staring crowd, "Oh,  
Donald!"  
Then her father's hand was on her  
shoulder, lifting her bodily, a dozen  
other hands pulled the man away  
from her, and in the flurry that fol-  
lowed she found herself swung help-  
lessly into her saddle, the reins put  
in her fingers.  
"Ride," said John Hannon beside  
her, and she rode—but the earth and  
the heavens tumbled about her and  
twice in the silent journey, when he  
did not deign to look back where  
danger certainly lurked in that  
bunch of men who followed Velan-  
trie, the Boss of Paradise had to  
steady his daughter in her saddle.  
Not one word did he ask her, then  
or after, about the whole affair, but  
put her in her own bed with his own  
hands and bade the women leave her  
alone, saying that she had had a  
turn and would be better soon.  
CHAPTER XIX  
The Black Rustler Rides  
BUT the boss was mistaken. Val  
was not better soon. For three  
days she lay in her bed in the  
deep south room and scarcely knew  
day from darkness. Belle was ter-  
ribly distressed and begged both her  
and John for explanation, but from  
the one she got only moans and  
silence, from the other the brisk as-  
surance that something must have  
happened to one of the girl's friends  
in Leandra to upset her.  
Through Val's poor brain there  
would a tumbling train of thoughts,  
any one of which was cause for  
despair.  
But she was young and magnifi-  
cently healthy—and she had the  
courage of her father's blood. There-  
fore she rose and came forth to con-  
front the household with haggard  
eyes and cheeks that had thinned  
overnight, it seemed—to find the  
riders tense and silent, her mother  
saddled with the old loneliness, for  
the boss was gone again. Once more  
had the far country called him and  
he had answered—answered on the  
hour, with his eagle eyes alert, his  
nostrils flaring.  
And then Val came to Bristol  
where he smoked alone in the patio  
under the stars and put a hand  
upon his shoulder. He dropped his  
cigaret and reached up to take the  
hand to his, to hold it between his  
two big palms in the comforting sil-  
ence of perfect understanding.  
And Val, heavy-eyed with tears,  
sank down on the bench beside him  
and put her forehead where the hand  
had been. More than one soft head  
had rested on Bristol's shoulder in  
the many years of his roving, but  
none that so pulled at his heart as  
this drooping black one.  
Therefore he sat still and waited  
as the perfect friend waited. Present-  
ly, with a sigh, the girl said, "Tom."  
"Yes, Val."  
"Will you—can you—find out if  
Valantrie—"  
"Don't need to find out. Parly was  
in town a day or two back—an' they  
said at Hannon's that his man  
picked him up an' took him off."  
"Strung across that horse of his with  
a man to help him ride, an' that he  
was comin' round then. Old Doc  
Tackert happened to be there that  
day an' he looked him over before  
they left an' said he was not serious-  
ly hurt."  
"Dios gracias," whispered Val  
against his shoulder and Bristol felt  
the whole shuddering of her body,  
the seeming of new life and strength  
that tingled in her at his blessed

## MRS. R. S. BARBER OF SO. BOSTON PASSES AWAY

(Special to The Register.)  
SOUTH BOSTON, Feb. 15.—Word reached here this afternoon of the death in Richmond of Mrs. Robert S. Barber, a prominent woman of this place. Mrs. Barber had been taken to Richmond about a week ago for treatment but her condition gradually grew worse and she passed away today. Deceased, who was 62 years of age, is well known in this place, being prominently connected with local church work and welfare work in general. She was a member of the Baptist church of this city.

The remains will be brought here for burial. They are expected to arrive tomorrow morning. The funeral will be held from the Baptist church at 2:30 o'clock and interment made in the local cemetery. Besides her husband, deceased is survived by three sons, Dr. William D. Barber, Dr. Cabell Barber and Robert Barber, of this place, and a sister Mrs. P. J. Ragiand, of Danville.

**John Singleton Expires**  
John W. Singleton, another well-known resident of this section, died today at Catawba, according to word received from that place. Mr. Singleton's home was at Omega, near here, from which place the funeral will be held, probably tomorrow. Mr. Singleton was a prominent figure in school and other public work. He also took great interest in politics. He is survived by his wife, Mrs. Singleton, of South Boston, and two brothers, Dr. K. Singleton of this place and Carroll E. Singleton, of Henderson, N. C.

## UPROAR RAISED OVER RAISING MONEY FOR DUKE

(By The Associated Press.)  
LONDON, Feb. 15.—The House of Commons was plunged into an uproar this afternoon as a result of the suggestion by David Kirkwood, labor member of the possibility of economizing in the allowance of 25,000 p. s., which the Duke of York will receive when he marries Lady Elizabeth Bowes-Lyon in April.

The Duke at present is allowed 10,000 p. s. a year, but Chancellor of the Exchequer in answer to a question, informed Mr. Kirkwood that this sum would be increased to 25,000 p. s. under an act already passed by the Commons.

The laborite then asked whether it was not the case that the government desired to economize, and that the wages of the working classes had been reduced. The speaker of the House rose amid cries for order and a general uproar in which Kirkwood shouted that this was a "Veto" opportunity to start economizing at the top, while the labor class was starving. He tried to make further remarks but was howled down.

**RESULT A SURPRISE**  
(By The Associated Press.)  
GREENVILLE, S. C., Feb. 15.—Twenty-three basketball games today and tonight in the opening of the third annual tournament of the Southern Textile Athletic Association brought several surprises. Among which were the defeat of Schoolfield Mills of Danville, Va., by Monaghan Mills of Greenville in a class A by a score of 44 to 23 and the defeat of Pacific Mills of Columbia, S. C., champions of the tournament of 1922 by Victor Mills of Greens S. C. by a score of 23 to 18.

Consolation matches will be commenced tomorrow morning and it is also expected that the checker contest, a unique feature of the tournament will begin tomorrow.

## HOW TO KEEP THE EYES BRIGHT

(Special to The Bee.)  
THE eyes deserve a great deal of attention because they are expressive of your individuality. You should keep your eyes bright, vivacious, sparkling, and full of life.

To do this, of course, you must have good health. Any stomach or liver disorder will affect the brightness of the eyes. Much depends upon the condition of the mouth, for many stomach disorders have been caused by improper mastication of food and care of the mouth.

Of course we cleanse our teeth night and morning and visit our dentist at least twice a year, but many of us neglect to cleanse our tongues. To clean the tongue daily is as important to the health as any other

tion that there had been secret European buying of sugar to a greater extent than had been previously revealed and that greater prosperity in the country means an increase in per capita situation.

Beet sugar men of Utah and Idaho have denied today that there had been speculation engineered by beet sugar interest back of the price fluctuations. They labeled this charge, brought in the east as "propaganda by the Cuban crowd." They pointed out, however, that while Cuba had started 1922 with a crop of 1,000,000 tons, this had now all been absorbed and that the sugar production last year had not been heavy. The size of the available supply however, they said, was not sufficient to cause any sudden radical price spurs.

On the Pacific coast the five largest sugar refineries, the California, Hawaiian, Western Sugar, Spreckles and Union have withdrawn from the market pending a return to normal conditions from what they term a speculative market. All the coast concerns stated that so as the West was concerned there was nothing to be feared in the way of a sugar shortage, pointing out that all the sugar from Hawaiian and the larger part of the Philippine crop passes through their hands and is reinforced by the California beet sugar product.

Officials of the California Hawaiian, and western sugar companies, largest importers of Cuban cane sugar, in the West declared that 85 per cent of the Hawaiian crop was still unexported and that present price increases were due to "speculators running wild." They asserted statements of a world shortage were unfounded by facts. Andrew Borwn, head of the California Hawaiian company said that Hawaiian tonnage was more than sufficient to supply the demands of the west.

Michigan beet sugar manufacturers today rung back the charge that they were being forced to return to normal fluctuations in price, responsibility for which they assert, rests with the sugar future speculators. F. R. Hathaway, secretary of the Michigan sugar company, largest crop of beet sugar in that section declared today the Michigan companies had done the only fair thing by their customers in withdrawing from the market. He explained that the price of beet sugar was based upon the price of refined cane sugar at Philadelphia and that when Eastern refineries stopped quoting prices for immediate delivery there was nothing for the beet sugar makers to do but to follow suit.

There was reason, Hathaway said, to expect a slightly higher trend of prices as compared with last year because of the deficiency of normal crop and because the recent sugar beet crop in this country was but two thirds as large as that of the previous season. He added however that there was no occasion for skyrocketing prices. Jobbers in the north-west are being told that when their present supply runs out they will be taken care of by the beet sugar companies.

Except for two or three of the larger companies the sugar crop in the Michigan-Ohio region has been pretty well sold, but the firms in easier financial situation have not hurried to dispose of their holdings and have considerable sugar on hand.

The crop of the cane producers in the south already has been sold at prices which while not high yielded a good profit to growers.

## KNAPPS SERVICE HELD YESTERDAY

(By The Associated Press.)  
RICHMOND, Va., Feb. 15.—A memorial service for Judge Martin A. Knapp, who died in Washington last Saturday, was held in the United States Circuit Court of Appeals here today, with William Howard Taft, Chief Justice of the United States, presiding. Resolutions embodying a tribute from the state bar were read by Judge H. R. Prentiss, of the Virginia Supreme Court of Appeals, and several attorneys commented up the life of the jurist.

The chief justice paid a personal tribute to Judge Knapp, recalling the latter's work as a member of the Interstate Commerce Commission, Circuit Judge, C. A. Woods and J. C. for his qualities both as a jurist and Knapp commended their late associate a man.

A telegram from the Asheville, N. C., bar added that organization's tribute to that of the Virginia Bar.

## DANVILLE "Y" WILL PLAY FIVE FROM CHATHAM

Danville Y. M. C. A. will play the Chatham Training School's team of hustlers on Saturday night, instead of the Greensboro Y. M. C. A. as previously announced.

The Greensboro manager did not cancel the game until Thursday of this week, giving as his reason "a recent tear up of players and lack of practice," altho to the writer's knowledge the Greensboro team has advanced a game with the Proximity Y. M. C. A. for tonight. To a close observer it would look as though the team from the neighboring city had suddenly developed a shyness towards mixing it up with the local boys. Danville's team went to Greensboro minus the playing ability of three of its regular men, namely Riddle, Dudley and Heiman Lea, rather than cancel or postpone.

The management had the good fortune to land the fast Chatham team for a game, not wanting to disappoint the fans who have been making arrangements to see a basket ball game on Saturday night. The Chatham boys have been waiting a return game with the "Y" boys in order to get revenge for the game

## COLD SPELL TO CONTINUE THIS WEEK

(By The Associated Press.)  
WASHINGTON, Feb. 15.—A continuation of the present cold spell east of the Mississippi tomorrow and Saturday was predicted by the weather bureau tonight, which said that abnormal temperatures existed throughout most of the United States and Southern Canada. The temperature continued to fall today in the southern and in the Atlantic states, but there was a reaction to somewhat higher temperatures in the Rocky Mountain, the plain states and the Rocky Mountain region.

Last of the Mississippi, the weather is expected to be fair the rest of the week, except for possible local showers in the lower lake regions tomorrow and Saturday and snow or rain in Tennessee and in the South Atlantic and east Gulf States Saturday. Storm warnings are displayed on the Atlantic from the Delaware breakwater to Nantucket

## RECEIPTS AND SALES GOOD

RICHMOND, Va., Feb. 15.—Officers of the Tobacco Growers' Co-operative Association express themselves well pleased with the results thus far this season and regard the success of the association as assured. The association, being a co-operative selling agency for farmer members and not working for profit, is not required to make monthly statements of sales or receipts as proprietors of open warehouses must do. However, Dr. W. K. Keno, director of warehouses gives the assurance that receipts in the co-ops' warehouses in January were large, and highly gratifying.

It is also stated on behalf of the co-operative that sales are keeping pace with receipts and at prices that will satisfy the growers. Whether these prices will rule higher than the average of sales on the open market, which is the price of the warehouse floor remains to be seen. Officials here in authority decline to say, but a Virginia weekly, which seems to feel that it knows, says, "The farmers' own check for their first payment indicate unmistakably that in the final settlement the whole scale of prices will be higher than on the open market."

Breaks on the Richmond market yesterday were large, but much of the tobacco was of low grade. There were some piles of very good tobacco, but the preponderance of common stuff made the day's sales in prices rather low. If clear weather continues and the roads dry out a little even larger receipts than for the past two days may be expected.

H. C. White of Louisa, grew the best tobacco sold here yesterday. He had four grades which brought 24, 38, 30 and 45 cents a pound. A few days back Mr. White had part of his crop sold at Shockoe. The average of the best brought 50 cents. His average will evidently be one of the best of the season. E. B. Harlow, another Louisa man, got second best price yesterday. His fancy wrappers pulled down 40 and 41 cents and other grades ranged from 13 3/4 to 36. The average was good, J. H. Green, Louisa, got from 34 to 39; Dr. A. L. Martin and farmer Carolina, 18 1/2 to 27; H. S. Hall, Hanover, 19 1/2 to 35; R. E. Osborne, Chesterfield, 15 1/2 to 33; J. H. Burton, Louisa, 16 1/2 to 33.

Most of the best tobacco sold at Butler's as well as Shockoe yesterday was from Louisa. Willis J. Wright got from 27 to 40 cents; C. O. Thomas, from 8 1/2 to 35; W. T. Massey, 6 to 26; and W. J. Daniel and Talley, 12 to 35 cents.

**No Shortage  
Of Sugar This  
Year Expected**

(By J. C. ROYLE)  
(Copyright, 1923, By The Register.)  
NEW YORK, Feb. 15.—There probably will be no world shortage of sugar this year although the surplus production will be small. That appeared to be the widespread general opinion of those in closest touch with the sugar industry throughout this country and Cuba today as the sugar situation steadied down after a flurry which brought wide changes of price, and manifold changes of speculation, manipulation and spreading of propaganda in its wake.

Many refiners and operators retired from the market entirely for the time being.

# Sarazen off His Game on Coast

BY WALTER CAMP  
(Copyright, 1923, By The Free)  
NEW YORK, Feb. 15.—The beauty of a golfing season has just been exemplified by the United States Golf Association in the championship golf proposal made by Sir Eric Geddes. Sir Eric recently suggested a great tournament to follow the British Open next June which would carry not only the world's title in golf but a purse of about \$5,000.

Now there were two elements in this proposal that were peculiarly repugnant to the United States Golf Association. First there was the patriotic purse. The U. S. G. A. has gone unreservedly on record against large purses. Secondly Sir Eric in addition to shining as a diplomat, is one of the officers of a Rubber Corporation whose products are employed in sport. Our National Golf Association has been even more set against the injection of commercial influence into the game than it has been against large money purses.

So all things considered, here was an opportunity for the U. S. G. A. to make its proposition so clear that in the future no one would dare make another offer of the kind. However great the temptation was not a word came from the August Councils of the U. S. G. A.

And then at length a ruling from St. Andrews couched in terms in which even Sir Eric Geddes could find no flaw, disposed of the proposition on the grounds that it would tend to commercialize the sport.

writer over two years ago that the way to take care of pitchers and prevent their getting glass arms in the course of the winter training was to put them through a course of conditioning of some weeks previous to their going to the training camps and getting the muscles of the shoulder in shape to stand the work put upon them. The belief that two or three days spent in gentle work prepared a man to begin trying out his delivery has proven a fallacy. This year the pitchers of the Giants and Yanks both will have a full two weeks conditioning course before they go to the training camp.

Andra Kirkaldy has invented a new term for cameras on the golf course. When the prince of Wales topped his drive upon the occasion of his playing himself in as captain of the Royal and ancient at St. Andrews, Kirkaldy and a crowd of the crowd of camera men, saying "Take Away Thae Blasted Camera." This reminds me of how a Britisher describes our baseball catcher upon the occasion of an American Nine playing in London. He said: "See him catch the ball in his Tea Coat."

The Penn Football team is going to play in a series of games from October 1st to November 29 as any team in the country is likely to take on in time to start the game. Walter was high scorer with three field goals. Many easy shots were missed by both teams.

## Schoolfield Is Defeated at Athletic Meet

The athletic representatives—fifty in number boys and girls—of the Riverside and Dan River Cotton Mills met with unfortunate at the tournament of the Southern Textile Athletic Association in Greenville, S. C., yesterday. Three Schoolfield basketball teams met defeat—the boys A and B teams and the girls B team. This information was contained in a telegram to the Schoolfield Y. M. C. A. authorities last night.

The Schoolfield girls have four basketball teams at the meet, two boys and two girls. Both of the boys and one of the girls teams were defeated in the preliminaries yesterday, thus eliminating them from cup competition. However, one class A girls team is scheduled to meet a team representing Monaghan mill, Sunday afternoon and have a chance to retrieve partially fallen Schoolfield colors.

Yesterday afternoon the class B boys' team lost 12 to 13 to the quart of Monaghan. This was a bitterly fought contest but the Virginia team was outmatched.

Last night at 8 o'clock the class B boys' team was defeated by Monaghan by the score of 44 to 23. The score would indicate that it was a runaway match for the South Carolina lads, but according to the telegram received the Schoolfield lads gave a good account of themselves.

Yesterday the girls class B team went down in defeat to the quart from Highland Park Mills, the score being 44 to 12.

One of the chief reasons assigned for the defeat of the boys class A quint was the absence of Mahaffey, the star center who recently underwent a serious operation and could not accompany the team to Greenville. The Schoolfield athletic representation includes a volleyball team and checker team. The volleyball team will get into action today. The checker team is scheduled to play some of the best checker players of the South in the tournament.

## SLEDD QUINT IS WINNER IN GAME WITH MT. VERNON

Mt. Vernon and Sleds Memorial put up a battle royal in the Senior league last night. Sleds finally winning by the score of 13 to 12, but on account of playing one ineligible man the game was claimed by forfeit by Mt. Vernon. The Sleds boys have been turning out in fine shape for games, but due to sickness and some misunderstandings only four were out in time to start the game. Weller was high scorer with three field goals. Many easy shots were missed by both teams.

# SPEEDY ICE SKATERS BREAK THREE WORLD RECORDS OF LONG STANDING

LEFT TO RIGHT: DONALD BAKER, MISS GLADYS ROBINSON, MISS ELSIE MUELLER.

The ice speedsters refuse to take a back seat when it comes to smashing records.

At the recent skating meet in Endicott City, N. Y., three new world records were made, two of them by the fair sex.

Donald Baker of Brooklyn covered 150 yards in 14.4 seconds breaking a record that has been on the books for 40 years. The old mark was 15.7 seconds, made by George D. Phillips in 1883.

Miss Gladys Robinson of Toronto, in a mile event with Miss Rose Johnson established a new mark of 3 minutes 58.2 seconds for the distance, beating the old mark by 2.1 seconds.

Miss Elsie Mueller broke the record for 20 yds. by negotiating the distance in 23.1 seconds, bettering the old mark by 4.5 of a second.

## SCHOFF BROS. PIANOS AND PLAYER-PIANOS INSPIRES THE CHILD.

Q. Does the player-piano discourage children from learning to play by hand?

A. It has just the contrary effect. It inspires in their hearts the desire to play by hand the music they hear played so beautifully and correctly with the player-piano. It familiarizes them with good music, which in itself is an important part of their musical education.

Q. Is the player-piano difficult to learn?

A. Among the most cultured people with artistic tastes, professional singers and pianists, music and dancing teachers.

Q. Are the people buying any considerable number of player-pianos?

A. There are now about as many player-pianos sold as pianos.

Q. What class of people are buying them?

A. Among the most cultured people with artistic tastes, professional singers and pianists, music and dancing teachers.

## TRINITY CHURCH BURNS

(By The Associated Press.)  
MONTREAL, Feb. 15.—Trinity Church, the oldest Anglican Church in Canada, which recently passed into the hands of the Catholics, was destroyed by fire early today.

The cause of the blaze has not been determined. The church was the fourteenth Catholic institution in Canada to be attacked by flames within the last year.

BY WILLIAM G. CAYCE  
LOS ANGELES, Feb. 15.—The care-free gypsies that roamed the highways at random 20 long years ago are not the same as the gypsies of today. The advent of the motor car has put a dent in the romance of present life of these "knights of the open road."

The old houses, the broken down wagons that were once turned loose and allowed to roam the commons outside of every city in the land, have been replaced by the gasoline-driven machines. Their "make-shift" camps with the string of horses in various stages of usefulness, fancy spring wagons and the several dogs that always accompanied such a caravan are gone, but the gypsies still remain.

## Albert Bailin's Memory About Himself Is Bad

CHICAGO, Feb. 15.—The memory of Albert M. Bailin, alias Balanow, confessed spy and agent provocateur, which enabled him for three days to tell a story of crimes alleged to have been committed by the W. J. Burns and Thiel Detective Agencies and operatives of the Department of Justice, failed him today.

Under cross examinations by O. L. Smith, assistant attorney general of Michigan, Balanow, who made his deposition here for Frank P. Walsh attorney for 22 defendants in the Michigan communist case, forgot his age, the date of his birth, the day of his birthday, the name of the ship on which he came to America, the town where he was born and many other facts about himself.

He refused pointblank to tell the names of his brothers and sisters in this country who might supply the information and after accusing Attorney General Smith of trying either to make a fool out of the witness or himself, refused on advice of counsel to tell where in America he landed or any other facts about his coming to this country.

He refused, on advice of counsel to spell test words selected by Mr. Smith from reports which Balanow had made in his own handwriting, while working for the Burns Agency. The Michigan official was trying to show that the same words were misspelled the same way in reports which Balanow now acknowledged were his and in others which he claimed were forgeries.

Allen O. Myers, assistant general manager of the Burns Agency, who said he had not been a witness to any of the events when Mr. Walsh attempted to question him in Philadelphia, New York and Washington, appeared today and volunteered to make a deposition, which will follow Balanow, probably tomorrow.

Although the Michigan authorities have arrested but 22 of the 77 men and women who are alleged to have attended the communist convention near St. Joseph August 22, 1932, and warrants for the missing 55 have now been issued since September one of the missing ones is attending the hearing here as a reporter. He is M. Baekal, a representative of the Jewish Freiheit, a New York newspaper.

Although he sat through the hearing today within a half dozen feet of Mr. Smith, prosecuting attorney Gore of Barron County, Michigan, and Max Berger, former Department of Justice Agent who is assisting the Michigan authorities, he was recognized only by a few newspapermen. Baekal told newspapermen he did not attend the convention.

Balanow refused to tell Mr. Smith where or when he was neutralized, but later changed his story and produced papers showing he became a citizen at Friendship Wisconsin, September 20, 1930. The naturalization certificate was read before the crowd by Smith, a step regarded as significant in view of rumors at the Federal Building here and in New York that an effort will be made to revoke the naturalization and deport Balanow as undesirable alien. Mr. Smith admitted to newspapermen the possibility of such action was being considered.

**SIX BUILDINGS BURNED AT CAMP**

PETERSBURG, Feb. 15.—Six unoccupied buildings were destroyed by fire and undamaged today at Camp Lee today. The loss was estimated at \$60,000.

The fire broke out about 4 o'clock this afternoon. Driven before a wind of gale force, the flames spread rapidly and for a time the entire camp was threatened.

Several hundred people attending the auction sale of government property at the camp formed a "bucket brigade" and attempted to check the fire. Their efforts proved unavailing, however, and the local fire department was summoned.

The fire was brought under control at 7 o'clock tonight.

## ARRESTS MAY REVEAL FAMOUS "DEATH TRUST"

CLARKSBURG, W. Va., Feb. 15.—An organized murder band whose whose tentacles have crushed life from scores of victims is believed by police to have been revealed by the arrest here of 17 men and alleged confessions of some of those arrested. Revenge as unrelenting as that which has wiped out whole clans in Italian vendettas, murder lists, secret rituals, symbols of blood-red hand-kerchief and knife gripped between clenched teeth are but some of the dramatic features of the confessions, according to police.

More than 40 murders, dynamiting, incendiary fires, and extortion will be charged against some members to substantiate clues upon which the band if police are able they are working. Others will be charged with complicity in various of the crimes.

Named in the confessions as the "big boss," Joe Sergi of Fairmont, W. Va., is alleged to have been the autocrat director. His way, the belief, according to the confessions, under which the Italian colony here has lived in dread for months, not knowing where next murder would strike.

**Killed Woman, Charge**

Police claim positive proof that the band committed three murders which until now have been labeled "unsolved."

One of these was the killing near Baltimore of Della Lemon, notorious woman of the Fairmont underworld. Her one-time master, Giovanni De-maco, shortly afterward was shot down in Chicago and \$15,000 taken from him by orders of the Mafia, the confessions are said to have stated.

Besides the murders, police are working on the theory that the burning of a business block in Fairmont, and dynamiting of a store at Grasshopper were the work of the band.

The confessions are said to show that bootleg whiskey traffic was the cause for the rough of murder and violence. It is believed the gang furnished liquor to various dives and that enemies of the traffic and members of a "hat" whiskey-selling gang were the victims.

**Old Ritual**

But interwoven with the most modern of businesses was a ritual of Old Italy. In the trunk of one of the men arrested here, officers say they found a Mafia ceremony and, among other things, a blood red handkerchief. This, it is believed, was used by the band to swear in new members. It is a ritual taking the oath with hand upon the handkerchief and knife gripped between teeth.

Other confessions are said by police to have shown that the members had a list of men marked for death. Chief of Police Laco Wolfe of Clarksbury, was to be killed on the telephone, declare police and told a still more recent confession in a house at Kelly Hill, an Italian settlement near Clarksbury. In this house, instead of a still, was to be a time charged of nitroglycerin. The Rev. T. E. Gien, of Northview, who preached against bootlegging, was another

## Forces Told to Help Themselves

ESSEN, Feb. 15.—General Fourrier French commander, notified Lord Mayor Luther today that the occupying forces had been authorized to help themselves in public houses and shops if the proprietors refused to serve them, and that any establishment where service is refused will be closed.

Dr. Luther replied that it was contrary to the German law for anyone to try to limit service in a German shop or public house.

Five cases dealing with virtually all the new forms of German resistance are scheduled for trial tomorrow before a French court martial at Brede-nay.

It is expected that the first of these cases will be that against Lord Mayor of Amsteln of Oberhausen who refused to permit Oberhausen's main railway station to be supplied with electricity or gas after it had been occupied by the Belgians.

Other persons accused include Director Buszmann of the Rhenish Westphalian Electricity Works and Vice Lord Mayor Scheffer of Essen, both of whom were arrested in connection with cutting off electricity from the Kaiserhof Hotel here. Charges were that the non-delivery of coal are pending against Herr Scheffer. An Essen police official named Klien is also to be tried likewise Recorder Guyenz of the Essen Retail Dealers Association will be tried. Their cases are understood to be concerned respectively with the refusal of the German police to salute French and Belgian officers and the boycott of the merchants against the occupying forces.

Another of Essen's leading newspapers, The Essener Allgemeine Zeitung, has been forbidden to publish for a fortnight.

Reports from other parts of the occupied area indicate that military occupation of the mines is being maintained and further arrests are being made. Workmen of the Prosper Mine number 2, quit when this property was occupied and the miners at the Rheinbaben and United Wilhelmmines called pro-

marked man as was also Chief of Police L. D. Bidder, who cleaned up the East Side in Fairmont, it is alleged. A half dozen Italian merchants, upon whom plans to extort had failed, were to be murdered, according to the statements.

**Fear More Killings**

Feeling over the arrest of the 17 men now held is so strained, that police fear further killings to avenge the revelations made against the murder gangs.

## THREAT SENT TO ROMAN CHURCH

(By The Associated Press.)  
MONTREAL, Feb. 15.—Warned by a letter threatening destruction of St. Michaels Roman Catholic Church and the headquarters of the Knights of Columbus at St. Lambert, a volunteer guard of that order tonight joined special police in establishing a night and day vigil around the buildings.

The letter carried the signature "K. K. K."

The Syrian Catholic Church here was destroyed by fire yesterday, the fourteenth Catholic institution in Canada to be razed in what is thought to be an organized plot of incendiarism.

## COTTON MARKET RATHER QUIET

(By The Associated Press.)  
NEW YORK, Feb. 15.—The cotton market was comparatively quiet today and the price movement was narrower. May deliveries fluctuated between 23.30 and 23.47 closing at 23.72 with the general market closing steady at net advance of 7 to 17 points.

The market opened steady at unchanged prices to an advance of 29 points steeper Liverpool cables. There was some 8 to 20 points higher in response to the price and local realizing which eased the market off during the morning. Reports of a cold wave in the South evidently made a favorable impression on sentiment with reference to the bull used situation, which may have promoted some pressure but trade interests were moderate buyers on a scale down and the reaction was checked around 28.00 for March, 27.76 for July and 25.11 for October or six to eight points above yesterday's closing quotations. March led the rally which followed, and seemed to be influenced by a

## A THREE DAYS' COUGH IS YOUR DANGER SIGNAL

Chronic coughs and persistent colds lead to serious lung trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with twofold action: it soothes and heals the inflamed membranes and kills the germ.

Of all known drugs, creosote is recognized by the medical fraternity as the greatest healing agency for the treatment of chronic coughs and colds and other forms of throat and lung troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation while the creosote goes on to the stomach, is absorbed into the blood attacks the seat of the trouble and destroys the germs that lead to consumption.

Creomulsion is guaranteed satisfactory in the treatment of chronic coughs and colds, bronchial asthma, bronchitis and other forms of throat and lung disease, and is excellent for building up the system after colds or the flu. Money refunded if any cough or cold, no matter how long standing, is not relieved after taking according to directions. Ask your druggist. Creomulsion Co., Atlanta, Ga.—

## There are so many ways to serve Kellogg's Bran—the one great aid to humanity!

You will enjoy eating Kellogg's Bran because its nut-like flavor appeals to the taste. And, think what each mouthful is doing to drive constipation out of your system and to re-establish health! That's because it is ALL BRAN. Kellogg's Bran is scientifically made to relieve suffering humanity—IT WILL DO THAT AS NO OTHER FOOD CAN!

Physicians recommend the regular use of Kellogg's Bran for mild or chronic cases and as a preventive. Bran, eaten each day and in proper quantity, sweeps, cleanses and purifies the alimentary tract.

Get away from pills and cathartics—Kellogg's Bran will give you permanent relief from constipation.

Do not confuse Kellogg's Bran with common bran. Kellogg's is cooked, crumbled and ready to serve. It can be used in the most delightful baking products without in any way reducing its regulatory value. Try raisin bread or muffins or griddle-cakes made with Kellogg's Bran. Recipes are printed on each package.

Kellogg's Bran is nationally eaten for health's sake as a cereal—in winter time with hot milk. Others prefer it sprinkled over hot or cold cereals. Another way is to mix it with hot cereals just before serving. It can also be cooked with cereal. In each case add two tablespoonsful of Kellogg's Bran for each person; in chronic cases as much with each meal.

Kellogg's Bran is sold by all grocers and is supplied in individual packages at first-class hotels and clubs. Ask for it at your restaurant!

## A Plain Statement!

It has recently come to me that some who oppose my candidacy for the State Senate have continued to circulate the rumor that I propose to annex certain territory to the City of Danville. I had thought that such a rumor would be its own denial—and still think so when the facts are called to the attention of the thinking people of this district.

1—Such a thought never entered my mind.

2—I know of no one who is favorable to or has suggested such annexation; certainly I do not favor it.

3—Under the Constitution and laws of Virginia the legislature of Virginia has absolutely no authority to enact a law annexing territory to Danville or any other City. Such question is one solely for the Circuit Court of Pittsylvania County. Can be decided by that Court and that Court only; presided over by a judge to be named by the Governor; such judge to be remote from the territory affected.

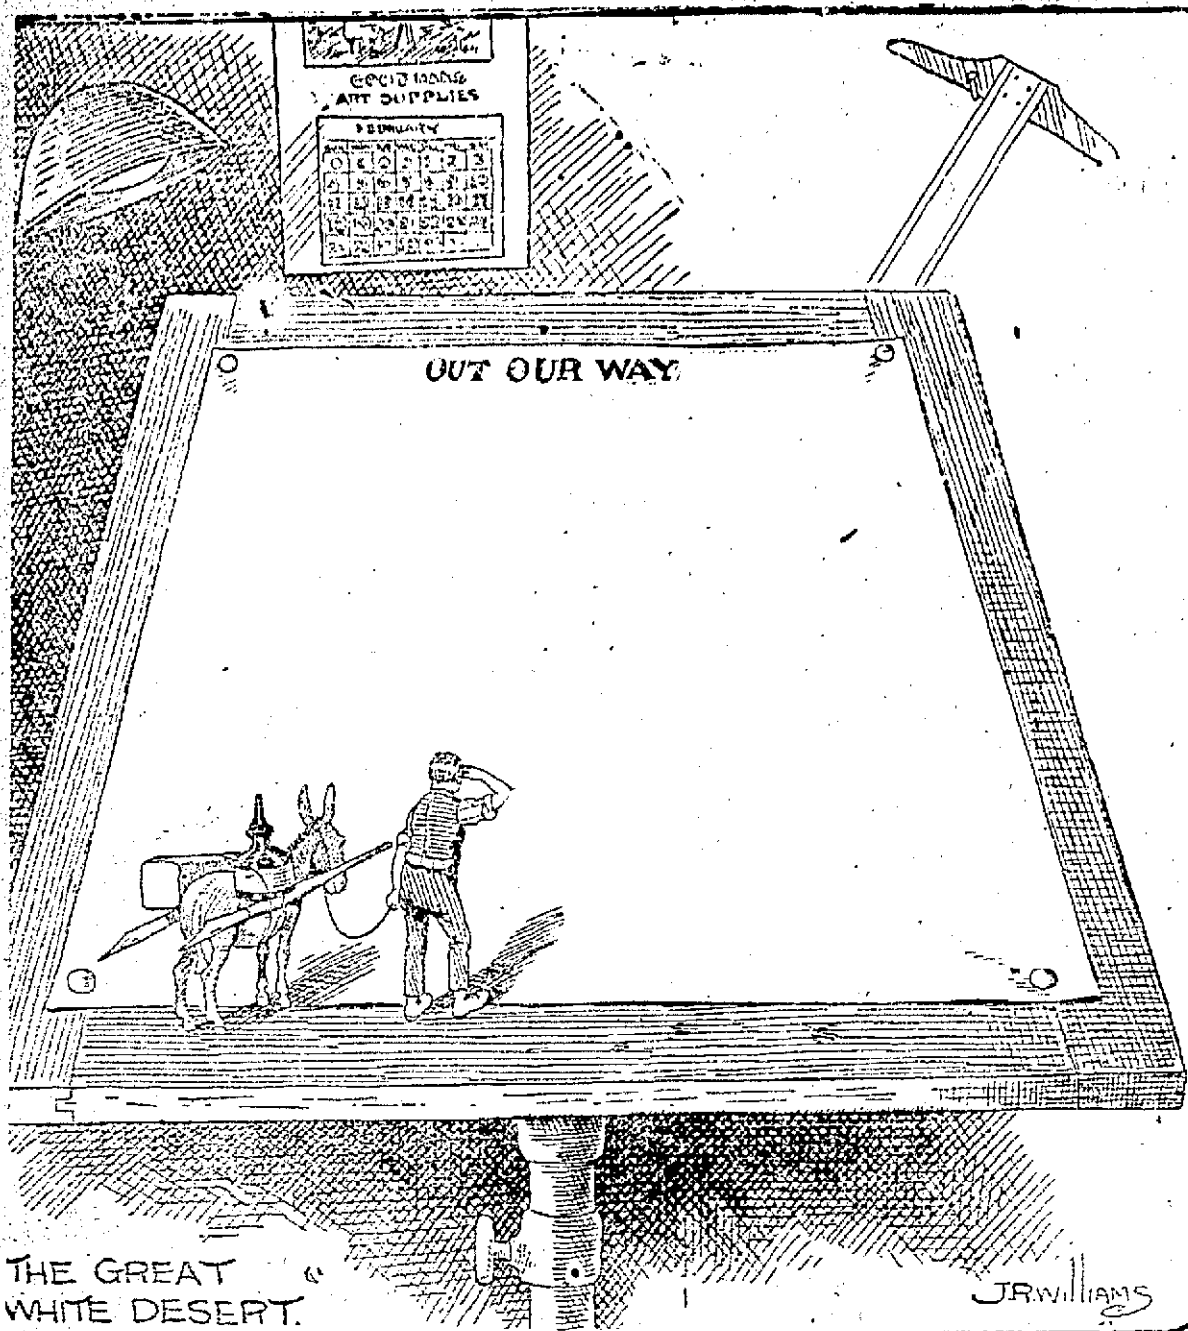

The Constitution of Virginia, Section 126, specifically prohibits the legislature from passing a law annexing any territory, or making any provision therefor to fit a special case.

How then can I do what is charged to me? Is it not plain that such rumors are for vote getting only?

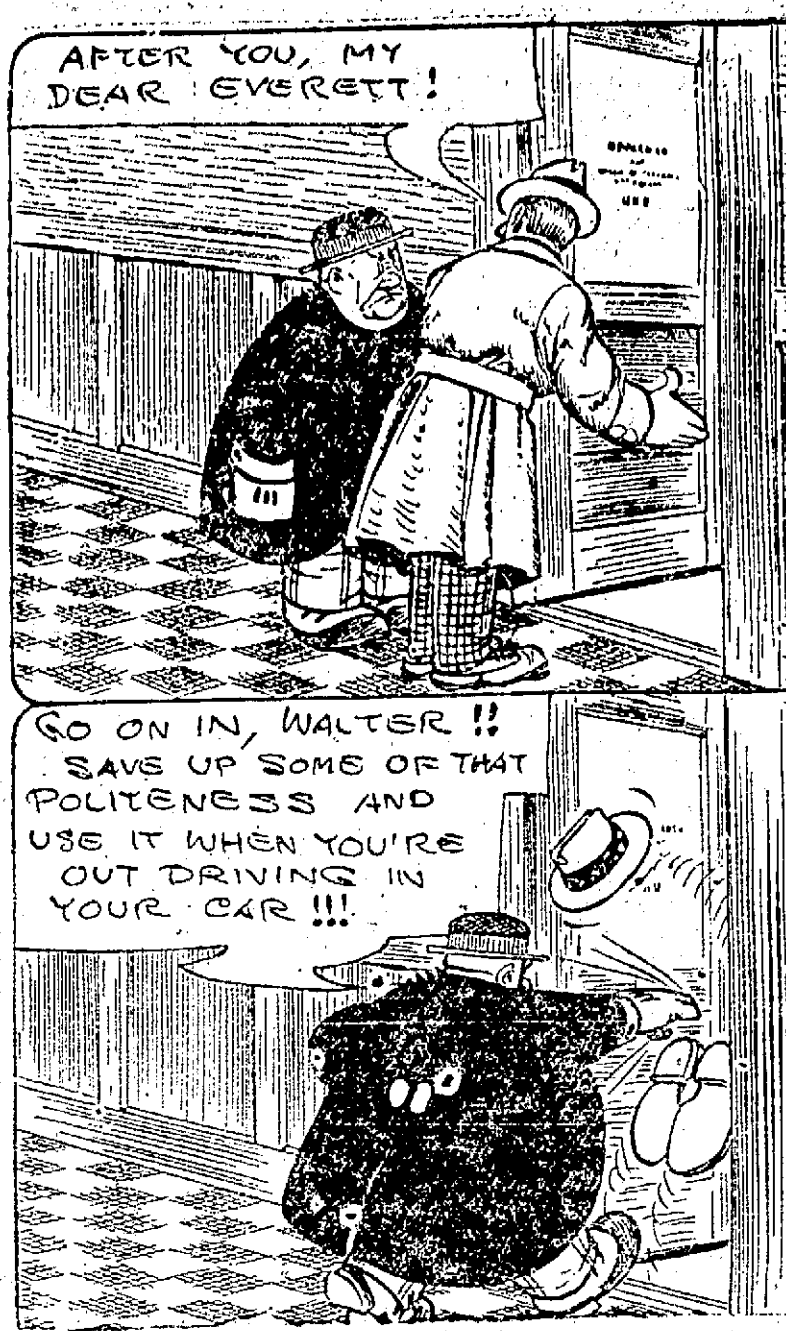

4—But in any event should there be any circumstance or law not known to me come before the legislature any measure having for its object the annexation of territory to Danville or tending to make annexation in any way less difficult, I should oppose it on the floor and vote against it.
